

Tech Integration Tips & Tricks

Clever is a digital learning platform for K12 schools--one friendly place for single sign-on.

I have been working on getting Clever set up for all of our students! Students will be able to sign on to their Chromebook by scanning their badge freeing up more class time!

Contact me today for more information!

“There is no perfect time to launch something new, and there will always be excuses not to. Don’t let perfection get in the way of action.”

We've Gone Wireless!!

We have gone wireless in the JRN Conference Room! The Clever Touch TV in the conference room has everything you need to attend or host a meeting without an additional computer or any extra equipment! It's simple, here are some tips!

- **Plan ahead**, send the zoom link or any documents you would like to share to jnconfm@fed.k12.mn.us
- If you are the host of the meeting you will need to start the meeting from your own computer/laptop.
- There is a camera, microphone, wireless keyboard, mouse, in the room all ready for you to use.
- If you would like assistance, please send a calendar invite to both Rich and I when you schedule the conference room. This must be done in advance so we can assure one of us is available.
- SpEd forms will not work on the clever touch board without being connected to a laptop so if you plan on using SpEd forms please plan accordingly.
- I will be hosting several trainings on how to use this equipment. If you use this conference room, please plan on attending one of these trainings. More information to come...
